Engineered Rigging Expands into South America

RUSSELLVILLE, ARK., June 24, 2021 — With infrastructure and large-scale industrial projects on the rise around the globe, Engineered Rigging has opened an office in Santiago, Chile, to serve the heavy lift equipment rental needs of South America.

The Chilean office augments Engineered Rigging's presence in the United States and Europe. All locations provide heavy lift equipment rental and sales, as well as expert contract engineering services. The company also provides design and build fabrication services out of its Russellville, Arkansas, facility which is also an authorized Enerpac Service Center.

"Since opening our office in The Netherlands in 2019, we've seen a steady rise in our international projects. Our newest location in Chile allows us to expedite the delivery of equipment and engineering expertise throughout South America," said Eddy Kitchen, co-founder and principal of Engineered Rigging. Over the past 18 months, the company's equipment, engineers and technicians have travelled across the United States, Indonesia, Chile and Mexico to fulfill client needs.

Contact information for Engineered Rigging's Chile office is 56.9.5908.3261 and chile@engineeredrigging.com.
