**Heavy Lifting
Showcase™ 2026**

CHRISTOPHER COX, P.E.
President of Engineered Rigging

WELCOME TO THE HEAVY LIFTING SHOWCASE™

Constrained spaces. Heavier loads. Tighter schedules. Less margin for error. Sound familiar? The realities of today's heavy lifts and machinery moves call for purpose-built equipment engineered to make jobs safer, faster and more predictable. The Heavy Lifting Showcase is your one-stop destination to discover new possibilities for your projects.

At Engineered Rigging, we've assembled a world-class fleet built by manufacturers who care about innovation, precision and reliability as much as we do. The profiles that follow introduce each of them, so you'll arrive at the Showcase knowing who you want to meet and what you want to see.

Thanks for making the trip. We can't wait to see you in Russellville!

Christopher

FEATURED EQUIPMENT
220-Ton LG202 Hydraulic Gantry

LUCA GIORDANO
CEO

ROBERTO PELLEGRINO
Technical Sales

CLP

POINT OF ORIGIN: BORGO SAN DALMAZZO, ITALY

Founded in 1973, CLP boasts over 50 years of experience in manufacturing large mechanical components for highly complex and technologically advanced sectors. With 14 standard hydraulic gantry models, CLP has one of the most extensive offerings of any heavy lifting manufacturer in the world. Each CLP gantry is developed, engineered and manufactured in one location which guarantees adherence to the highest standards of power, reliability and precision.

ENGINEERED RIGGING®

POINT OF ORIGIN: RUSSELLVILLE, ARKANSAS

Our fleet of heavy lifting and specialized transport equipment has been put to work around the globe. We rent and sell leading-edge technologies that lift, lower, hold, slide and rotate loads of all shapes and sizes. With a well-developed network of logistics providers, we can deliver even our largest systems to remote locations. If you need an option to withstand a harsh environment or operate within a small footprint, our heavy lifting experts can identify the best and safest solution. If the equipment you need doesn't exist, we can design and fabricate custom solutions to meet your exact specifications. Plus, our in-house engineering team and technical support staff are available to help you overcome the most complex lifting challenges and machinery moves.

FEATURED EQUIPMENT
Jekko SPX328 Mini Crawler Crane

BERNIE FALONEY
CEO

JASON HARLOW
Product Manager

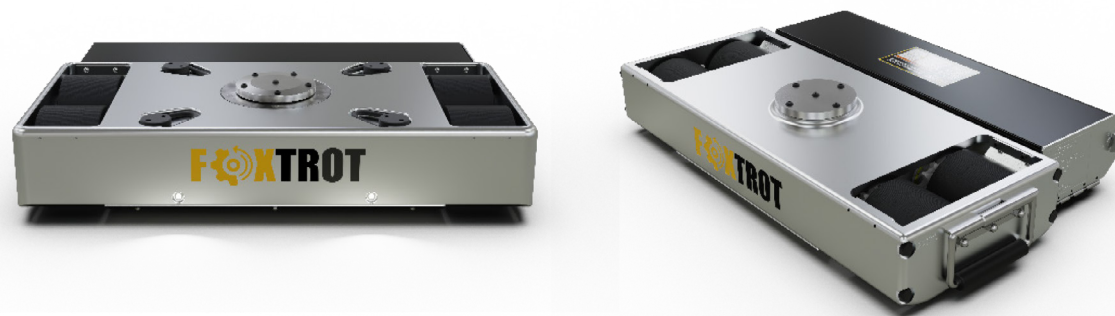

COLT VACEK
Special Div. Product Manager

FASSI

POINT OF ORIGIN: ALBINO, ITALY

Since 1965, Fassi has been one of the world's leading points of reference in the lifting industry. A 100% Made in Italy supply chain, an integrated production system, and a mission that remains unchanged: to deliver tailor-made, innovative, and reliable solutions wherever they are needed. Every Fassi crane is born from the combination of advanced technology, industrial expertise and a constant commitment to excellence.

Fascan International, located in Maryland, is the exclusive supplier of Fassi hydraulic articulating cranes and Jekko mini cranes in the United States and the Caribbean

FEATURED EQUIPMENT
20-60-Ton Robotic Dollies

CHARLES-ÉRIC RAYMOND
President

BENOÎT SERRANO-PARENT, ING./ENG
COO

FOXTROT INDUSTRIEL

POINT OF ORIGIN: QUÉBEC, CANADA

Foxtrot Industrial specializes in heavy-load moving robots from 10 to 60 tons, designed to improve safety and efficiency during material handling operations. Compact and powerful, our robots help riggers, manufacturers, and industrial maintenance teams move and position heavy equipment while improving productivity in heavy lifting operations.

Our product range includes SOLO, TANGO, OMNI, and BRIDGE systems for both indoor and outdoor applications. Foxtrot solutions help reduce manual handling, limit the risk of equipment damage and workplace injuries, and provide more precise and controlled movement of heavy loads.

FEATURED EQUIPMENT

Trakporter, Omni Skates, TK-EVO Battery Powered Skate

MARK POLSON
Regional Sales Manager

ABRAHAM PUNNOOSE
Business Dev. Manager

HILMAN

POINT OF ORIGIN: MARLBORO, NEW JERSEY

Founded in 1953, Hilman Inc. designs and manufactures heavy load-moving equipment trusted across energy, industrial, infrastructure, manufacturing, maritime, and data center sectors. From machinery skates and rollers to advanced powered transport systems, Hilman solutions help customers move and position critical assets safely, efficiently, and reliably. Backed by decades of engineering expertise, Hilman solutions are trusted globally for demanding load-moving applications.

FEATURED EQUIPMENT

Ring Climbing Cylinders, 200-Ton Skidding System,
Apeiron Battery Pumps

ROB LOONEN
Commercial Manager

HOLMATRO HYDRAULIC SOLUTIONS

POINT OF ORIGIN: RAAMSDONKSVEER, NETHERLANDS

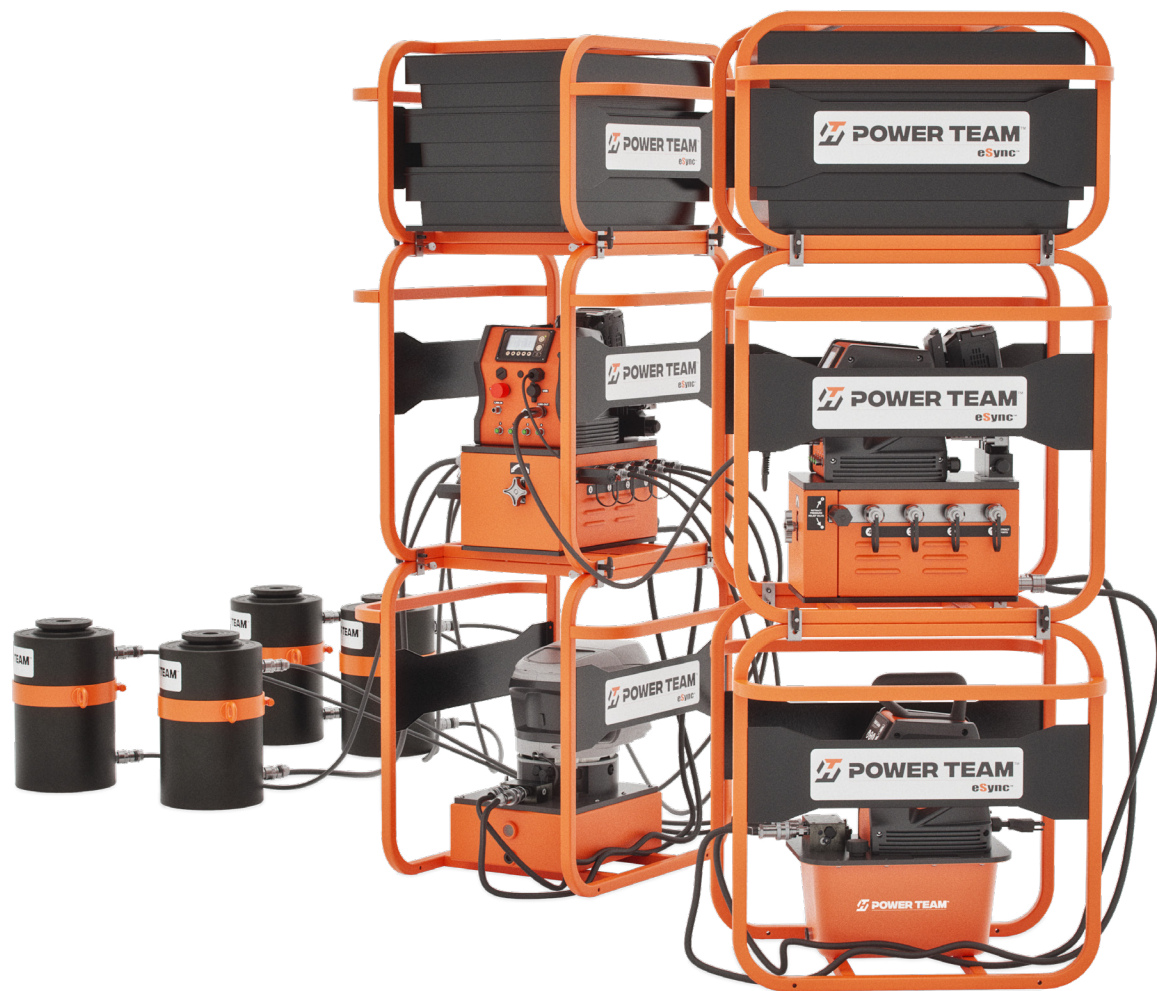

For a wide range of industrial markets, our cylinders, pumps, and system components provide controlled force and maximum flexibility, from 5 to 300 tons. In Heavy Lifting & Transportation, control is key. Our solutions are designed to be safe, reliable, and user-friendly for the construction, installation, and offshore markets. Whether it's lifting, moving, pushing, or pulling, our systems move with the project and ensure efficient and safe handling of heavy loads.

In addition to quality, we focus on unburdening our customers. Our in-house specialists and global partner network offer direct support, maintenance, spare parts, training, and consultancy. Our long-standing experience and the local market knowledge of our partners ensure safe applications, maximum reliability, and a long lifespan.

POWER TEAM

POINT OF ORIGIN: ROCKFORD, ILLINOIS

For decades, Power Team has been the cornerstone of safety and reliability in high-pressure hydraulic tools. Our hydraulic power solutions feature hydraulic pumps, cylinders, shop equipment, heavy lifting and positioning equipment, jacks, tools, and system components. This comprehensive Power Team portfolio meets the critical needs of the construction, automotive assembly, mining, shipbuilding, manufacturing, and industrial processing sectors.
